TO CONSUMERS OF
PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, falling in many cases, fifty per cent. less, than represented, we have commenced putting up, in addition to our present second size jar, an article which we are labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and are filling into full sized jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country.

550,000 Acres Selected Pine and Farming Land.
IN MICHIGAN.
THE SAINT MARY'S FALLS
SHIP CANAL COMPANY

OFFER for sale these Lands, which are principally situated in the lower Peninsula of Michigan, and in the vicinity of the large streams and rivers, easy of access, and selected under more favorable circumstances than

Any other Western Lands,

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

For Lumbering Purposes,

They are very desirable and valuable. The streams are large and capable of floating logs at all seasons of the year, with harbors at their mouths on the Lake. At many of these points settlements and extensive lumber operations are formed and conducted with uniform success, proving already the most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great **Lumber Markets** of the country.

Tracts of from 40 to 40,000 acres will be found at convenient points, affording opportunities for either small or the most extensive lumbering operations. A large portion of these Lands are among

The Best Farming Lands of the West,

and as they contain enough of the FINEST PINE TIMBER to more than pay for the land, fencing, moderate buildings, and other improvements, offer very superior inducements to farmers seeking a western home.

The Climate is Mild and Equable,

and soil and climate both suited to all the grains, fruits, and produce raised, in the most favored portions of the West.

Companies of 10 15 or 20 Persons,

with their families, will find locations, just suited to the formation of a settlement, with good water power, and convenient access to neighboring settlements.

TERMS:

One-fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual exploration by several different parties, with accurate maps of each township, according to government surveys. These may be seen at the

Land Office of the Company in Detroit, Michigan.

Copies of Maps, field notes, and other information concerning the lands will be furnished, without charge, to those wishing to purchase.

☞ Large Maps of the State, showing the lands of the Company, will be found at public places in most of the principal towns in the Eastern and North-western States. GEO. S. FROST, Land Agent.

St. Mary's Falls Ship Canal Company, Land Office, Detroit Nov. 1, 1856. 3m

---

Boomage Notice.

THE Directors of the Penobscot Lumbering Association have directed the Treasurer to pay the over-assessment of eight cents per thousand on the logs rafted in 1856, in cash when it is less than fifty dollars, and in scrip on two years when greater; provided each individual first pays all sums due by him to the Association. As in most cases the balance will be in favor of the individual, the Treasurer hopes to receive early calls.
H. E. PRENTISS, Treas. P. L. A.

THE HATCH HOUSE,
Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which, Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful Hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.
Bangor, Feb. 26, 1856.

STANLEY HOUSE,
WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public, that he has reopened the Stanley House Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

Try it! Try it!! Try it!!!
G. W. STONE'S
LIQUID CATHARTIC
—AND—
FAMILY PHYSIC,
The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine having been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, Invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHOEA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies without success, despair not—relief is now at hand. Are you suffering from Scrofula, a bottle or two of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

Whig and Courier.

HOW AQUAFORTIS OPERATED ON OLD JOE.—In the pretty village of Haddonfield, New Jersey, some years ago, there resided an old fellow who was familiarly known in the town and country around as 'Old Joe.' He had no particular occupation except doing chores or errands, nor any particular location. He ate where he could get a bite, and slept wherever he could get a lodging-place. Joe was a regular old toper, and Jersey lightning had no more effect on his insides than so much water. He generally made his head-quarters at the lower tavern, for there were two in the town. He would sleep and doze away the afternoon on an old bench in one corner of the bar-room, but was always awake when there was any drinking going on. When he was not asked to drink, he would slip to the bar and drain the glasses of the few drops left in them. One afternoon, Dr. Bolus, the village physician, was in the bar-room, mixing up a preparation. He placed a tumbler half full of *aquafortis* on the bar, and turned around to mix up some other ingredients. A few moments after he had occasion to use the drug, when he found to his dismay that the tumbler had been drained to the last drop.

'Mr. Wiggin,' exclaimed the doctor, in affright, to the landlord, 'what has become of that *aquafortis* I put on the bar a few moments ago?'

'I don't know,' replied the landlord, 'unless Old Joe slipped in and drank it.'

In this suspicion they were soon confirmed, for the ostler said he had seen Joe swallow the fatal draught.

The doctor, knowing he must certainly die after such a dose, instituted a search at once. After some hours spent in looking through the barns, out houses and woods, for three or four miles around the village, he was abandoned to his fate. It was a cold night, and as the village topers assembled around the blazing hickory fire in the bar-room, nothing was thought or talked of, but the unfortunate end of poor Old Joe. Some four days had elapsed, and nothing had been heard from Old Joe; they all came to the conclusion that he was a goner.—The doctor, about this time had occasion to visit a patient some eight miles distant; what was his surprise when about five miles from the village to see Old Joe in front of a farmer's house, splitting wood.

'Why, Joe,' said the doctor, riding up to the fence, 'I thought you were dead and buried before this.'

'Why, what made you think that, doctor?' said Joe, leaning on his axe-handle.

'Didn't you drink that dose I left on old Wiggin's bar a few days ago?'

'Yes,' replied Joe, half ashamed to own it.

'Do you know what it was?' asked the doctor.

'No,' returned Joe.

'Why, it was *aquafortis*—enough to kill a dozen men.'

'Well, now, doctor, do you think that I thought there was something queer about that darned stuff, for after I drank it, *every time I blowed my nose I burnt a hole in my pocket handkerchief.*'

HAD 'EM AT LAST.—A young man from the rural district, went to the post office the other day, with a bank note, for a dollar's worth of postage stamps. He was told that paper money was not received. He went away, and shortly returned with four Spanish quarters. 'We don't receive them now,' said the attendant, 'for more than twenty cents apiece.' The countryman thought Uncle Sam was mighty particular, so he went away again and procured a dollar in coppers. 'Now,' said he, on returning to the office, and laying down his 'pile' at the window of the delivery, 'I guess I can suit ye.' The man inside looked at the display of 'specie currency,' and coolly said, 'We never take more than three cents in coppers at any one time—it is not legal tender above that sum.'

The countryman looked at the composed official for the space of a minute and a half without stirring; and then he belched out, 'Look here you; ain't you almighty kind of particular, for fellers locked up in such a jail as this are? You don't take only three cents in coppers at a time, hey? Well, then, s'pose you give me *three* cents worth of stamps, anyhow.' The official very politely cut him off a single stamp, and passed it out, for which the countryman laid down three cents. He was about to pass away, when the latter cried out, 'Look here, you! Hold on! That 'ere's *one* time.—Now s'pose you gin me three cents worth more on 'em.'

Uncle Sam's clerk was not slow in discovering that he had caught a tartar. He turned back to the window. "How many coppers have you got?" he asked. 'Wall only about ninety-seven of 'em; I had a hundred on 'em when I begun.' 'Pass 'em in!' was the gruff reply. 'Pass your stamps fust and then I will,' said 'Jonathan,' 'I reckon you don't ketch me again.' The stamps were passed out, the coppers were handed over, when the countryman went off saying, 'I s'pose because a feller holds office under Uncle Sam he thinks he's smarter n all creation; but I guess they larnt something that time.'—*Lowell News.*

AN AFFECTING STORY.—Thrilling accounts are given in the Maysville papers of the chase of two *lovyers,* by an enraged third party (the *parient,*) who, as we take up the story, was following them across the Yuba river;

'Augustus saw the fury depicted in the old man's face, and deeming discretion the better part of valor, made a dead halt in the mud and concluded to surrender. Mary was frantic.—Leaping suddenly from her horse, and walking around through the mud three feet deep, she gathered her husband by the legs and dragged him to the ground. Then grasping him tightly around the neck, she shouted to her father, who was now in speaking distance—

'You shan't part us. Right here up to our knees in mud we will live and die together!'

The old man started back in amazement.

'Yes,' muttered the half used up Augustus, 'we'll die right here in the mud.'

'But Mary—my child—groaned the old man, 'are you not my daughter still?'

'Yes was the reply,' and I am his wife too.'

'And are you married?'

'We are,' exclaimed both.

The old man looked daggers for a moment, closely scrutinizing the couple as they clung to each other in the mud, and turning his horse's head toward the city, he started off, saying—

'That's all I wanted to know. You can now get out of the mud and come home!'

TELEGRAPHS ON RAILROADS.—The proposal to enact a law compelling railroads to have regular telegraphic communications between the stations along the lines, is one which is practically carried out to advantage on many of the Western and Southern lines. No sooner does one train arrive at a station than the operator notifies the attendant at the next station on the line that the arrival has taken place; and an "all right" in reply, assures the con-

NewspaperARCHIVE.com

BANGOR DAILY WHIG AND COURIER.

ductor that there will be no obstruction from any train on his course towards his next stopping place. The superintendent on the Baltimore and Ohio line informed a friend that the single line of rail, with the telegraph, was safer in practical use than a double line with the strictest regulations.

A Calling.—Judge—Witness, do you know Mr. Tummings?

Witness—I do, sir. Him and me are cronies.

Judge—What is his profession?

Witness—He ain't got any, as I know on.

Judge—His business, then, or calling?

Witness—Wal, sir I [illegible], ain't in no business, I reckon, nor callin', neither.

Judge—What then does he do?

Witness—Why, bless yer soul, he runs wid number two; I thought everybody know'd that.—*Boston Post.*

Whig and Courier.

Wheeler & Lynde, Proprietors.

WEDNESDAY, FEB. 4, 1857.

In City Council.

Feb. 2, 1857.

Petition of Archibald Owen, for allowance for injury, by upsetting sleigh.—Referred to Committee on Accounts and Claims.

A Resolve authorizing a loan of $5000 for a term not exceeding eight months to meet the current demands upon the City Treasury, was passed in concurrence.

REPORTS ACCEPTED.

Of the Committee on Accounts and Claims on the petition of F. M. Sabine, for the city to refund to him the amount of taxes upon 33 acres of land, paid by him, said tax having been erroneously assessed.

Of the Committee on City Property in relation to the purchase of a wood lot.

Of the Committee on Accounts and Claims on several Bills.

ORDERS PASSED.

That the sum of $2000 be transferred from the Contingent fund, and placed to the credit of the Pauper fund.

That the Mayor draw his order in favor of F. M. Sabine, for the sum of $30, for all claim on account of taxes erroneously assessed on 33 acres of land, and paid by him.

That the Committee on By Laws and Police Regulations inquire into the expediency of increasing the salary of the Mayor.

REFERRED TO THE NEXT CITY COUNCIL.

An Order appointing the Mayor and President of the Common Council, a Committee to inquire into the expediency of longer continuing the agreement made with the County of Penobscot in the year 1841 whereby a portion of the Alms House in this city was constituted and has been used for a County House of Correction for said County since January, 1841.

An Order authorizing the City Treasurer to purchase a lot of land in Hampden, of about 250 acres, owned by D. Mo[illegible]man and J. Mason for a wood lot, for a sum not exceeding $10 per acre—was refused a passage in the Board of Aldermen, but passed by the Common Council.

Adjourned to the first Monday of March next, at 7 o'clock P. M.

The Feb. Term of the S. J. Court for Criminal business commenced its session in this city yesterday, Judge Cutting, presiding.—The following are the names of the Grand Jury.

Wm Bartlett, Jr. Foreman, Bangor; Harvey Reed, Bangor; J. Skinner, Brewer; Sargent French, Bradley; Wm Haskell, Carmel; Isaac Dunning, Charleston; Humphrey Nichols, Corinth; Wm. R. Hamilton, Dexter; Daniel Edminster, Dixmont; Thos. W. Stevens, Exeter; Geo. R. Coffin, Garland; Edmund Mcguire, Glenburn; John Parker, Hampden; Jas. Bourk, Lee; Jesse Rishard, Levant; S. B. Lovejoy, Lincoln; John Stuart, Newport; Henry W Heald, Orono; Willard Smith, Oldtown; Sam'l Swett, Orrington.

Cold at the South. In Nashville, Tenn., on the 29th ult. the mercury was 6 deg. below zero. The Pee Dee Herald of 29th Jan. says the glass was at 8deg. to 20 for three days previous; the river was frozen over. At Louisville, Jan. 23, the glass indicated 4 below zero; the Ohio was nearly closed at that point. At Charleston, S. C., (same date) even the ink used on the editorials of the Courier froze up. At Weldon, N. C., the snow was 17 inches deep on a level, on Jan. 20. At Augusta, Ga. on the 22d Jan. the Savannah river was filled with floating ice. We believe this to be the most severe cold rated at the South during the present century.

Aids to the Governor.—Gov. Hamlin, in his capacity as Commander-in-Chief, has appointed M. F. Wentworth, of Kittery, Charles A. Wing, of Winthrop, Theophilus H. Cushing, of Frankfort, and Benjamin Freeman, of Bethel, to be his Aids-de-Camp, with the rank of Lieut. Colonel.

☞ We invite our readers to the perusal of Dr. Ayer's advertisements, which appear in the columns of our paper. They deserve attention as treating of what interests us all, and from a source which all have long respected. The Doctor is well known as one of the leading chemists of this country, who devotes his great acquirements to the discovery and manufacture of remedies for popular use. The unparalleled success which has followed his labors is too well known in this community to need any elucidation from our pen.—*Washington Co. Observer.*

Graytown is reported to be in possession of the Costa Ricans, and Walker had not been heard from for three weeks.

The Agriculture of Maine and its Wants.

We are indebted to Col. Henry Little of this city, for a copy of the "First Annual Report of the Secretary of the Maine Board of Agriculture," 1856, made to the Legislature.

The Secretary, (chosen by the Board) is Mr. S. L. Goodale of Saco; and he has performed for the great and vital interest of Agriculture a service which will long be remembered, in the preparation of the Report before us. It is very full—occupying, with its Appendix, nearly 200 pages. But it is as valuable as it is voluminous. We think no Report of the kind has ever been made in the United States, of so practical and scientific a character, or manifesting so thorough an acquaintance with the interests and wants of the farming community,—the needs of agriculture as a business and a science—and the vital concernment of all classes of the people in the prosperity and progress of farming.

The State can do nothing more beneficial to the people, or to the interests of Agriculture, than to give this report (or at least a judicious practical abstract of it,) an extensive circulation. Its profitable truths and suggestions, and valuable practical information, can in no other way be generally made available.

Our limits prevent us from copying so extensively as we wish; and we are obliged to content ourselves at present with the following—taken somewhat at random:

Wants of Agriculture.

These are too numerous to be mentioned in detail, and our effort will be simply to discuss a few of the more urgent and comprehensive; and the first is, the adoption into its practice, of those habits of system, method, and accuracy, which are found indispensable to all branches of business whatever—*but new habits.*

Now I hold that *until agriculture be pursued as a business, and until we have faith in it as a profitable one,* it can never attain the degree of improvement otherwise practicable, and there are some considerations going to show that farmers now generally *lack faith* in their pursuit as a business, some of which will be noticed; and first it is very common to hear farmers say they cannot afford to hire help to carry on their farms. Why this, if they have confidence in it as yielding a profit after paying wages and other expenses? It is not so with the merchant and manufacturer, for they unhesitatingly employ all the help necessary to carry on their business, and because they have confidence in it, believing that those they employ will not only earn their wages, but will themselves reap a profit from the ultimate result of their labor.

* * * * *

Men in business, if they have not ample capital, do not hesitate to borrow money to carry it on, and sometimes at rates of interest above the legal rate; and they do this because they believe that by so doing they can pay the interest, and make a profit beside, while with our farmers, who as a body are confessedly embarrassed for want of working capital, not one in a dozen dares to borrow money to invest in agricultural operations. They may, from necessity, incur debt for the purchase of lands, the erection of buildings, &c., which becomes fixed capital, but very few are they who dare to borrow to use as working capital. It is not so in other countries. In England agriculturists make, what to us, with our style of farming, seems the most lavish use of working capital in their operations, as well as landholders of fixed capital in permanent improvements. It is not uncommon there, for the landlords to add to the value of their estates beyond the cost of the land, buildings and enclosures, from forty to a hundred dollars per acre in permanent improvements, as thorough draining, &c., and then for farmers to rent such at the usual rates of interest on fixed capital, and themselves bring from thirty to sixty dollars per acre of working capital to carry it on; and they do a profitable business at it. The money-lending farmers of Maine would probably much prefer to see an operator bold enough to do likewise, put under guardianship, rather than trust him with any of their funds.

* * * * *

It is an undoubted fact, that agricultural pursuits are more surely remunerative, and more certainly yield a comfortable competence to such as engage in them with skill, energy and perseverance, than trade, commerce, manufactures, or any of the so called learned professions. It has been shown on good authority, that about two-thirds of those who engage in trade make disastrous failure of it; that about one-third only are even moderately successful, and only one in a hundred eminently so. With the tillers of the soil, it is otherwise. Few either fail or amass great wealth, while the great majority attain comparative competence and comfort.

But in order to command confidence as a pursuit and to attract all needful aid to the highest degree of successful development it is necessary to show that it actually does or may be made to yield a fair profit on capital invested, over and above wages and all other charges. And how is this point to be settled?—Plainly in the same manner as the merchant or manufacturer determines the same point in relation to their business—viz: by keeping exact accounts and making the proper entries to debt and credit.

It must by no means be forgotten, that so long as the farmer can obtain the cost of his products only, he has no reason to be discouraged, because he can live comfortably upon the wages which is a part of the cost; but if his products cost more than they will bring in market, it is time to cast about and ascertain the cause, and in doing this, it is highly probable that much may be developed hitherto unsuspected. For instance, he may find that one acre of corn, yielding thirty bushels, costs a dollar per bushel, while another upon which more has been expended in manuring and deep tillage, yields sixty bushels, at a cost of only seventy-five cents per bushel; or he may find that his crops or his mode of cultivation are not those best adapted to the kind of soil—or that being remote from market, he has hitherto lost a large proportion of the proceeds obtained, in expenses of transportation, and so might do better to turn his hay, grain, or roots into beef, pork, or mutton, and thus save much. He may find that his implements are not so good as those of others, who can afford to sell cheaper—or his manures too scanty in quantity, or deficient in quality. He may find a thousand leakages which need to be stopped, and not unlikely that a radical change of policy may be required, as from tillage to grazing or vice versa, as a main and leading object.—Not only has each section of country its natural advantages or disadvantages, as soil, climate, proximity or remoteness of market, but so likewise has each farm in a greater or less degree, and true policy dictates that the advantages should be so followed up as to secure the best possible returns for labor, skill, and capital invested.

Under-Draining.

There is probably no subject connected with agriculture, of equal importance, which is both so little understood in theory, and so much neglected in practice (not in Maine only, but throughout the country at large, as that of the drainage of land.

All readily admit that where water stands upon the surface, draining sufficient to be well rid of it, is necessary and proper, but few comparatively, among us, understand the benefit to be derived from a thorough drainage of all lands which *overlie an impervious or retentive subsoil, and thus contains stagnant water beneath its surface.*

In England, this subject has been thoroughly investigated, and extensively tested. Of its results, an intelligent observer says: "There is something magical in the effect of draining.—Both meadow and arable lands are equally benefited by it. In the meadows, marsh plants disappear; the hay is at once more abundant and of better quality. On the arable lands, even the most clayey, corn and roots shoot more vigorously, are more healthy, and require less seed for a larger crop. The climate itself, gains sensibly by it. The health of the inhabitants is improved; and in all cases where drainage has been vigorously carried out, the foggy isle seem less thick and heavy. Drainage was thought of for the first time ten years ago, and a million of hectares,* at least, are already drained; every thing promises that in ten years hence, almost the whole of England will be so. It is as if the Island were once more rising out of the sea."

Capitalists there, are ready and willing to advance money to drain lands needing it, taking no other security than the *increased value* of the land; for instance, suppose a farm to be valued at two thousand pounds; to drain it would cost another thousand pounds. The capitalist advances the needful amount, taking a mortgage, conditioned that it shall *not* take effect in any case upon the original appraisement of two thousand pounds, but only upon the increased value beyond the increased value beyond that sum; so that the owner hazards not a farthing in accepting the terms. Surely, money-lenders who will do this must have faith in the efficacy of drainage; nor is their confidence misplaced. Money judiciously expended in draining lands, is a safe investment, either in Old England or in New England. It may not pay so large a percentage of profit here, for labor being higher, it costs more to drain; nor do farm crops bring so high a price with us, yet increase of productiveness and of *profit is perfectly sure* here.

A simple test to decide whether it be urgently necessary or not, may be thus applied: dig a hole three feet deep; if at any time, water is found to remain in it for three days continually, whether from rains or from the contiguous soil, there can be no question whatever. Such lands are familiarly spoken of as *cold,* and very properly so; but what makes them cold? not certainly because more water falls on them than on others, or because the water which does fall is any colder. It is because that *which falls is retained until evaporated,* instead of passing away downwards.

---

*The hectare is nearly two and a half English acres.

The Weather at the South.—The newspapers contain quite exciting accounts of the great storm, which prevailed throughout several of the Southern States. A despatch from Augusta Ga., under date of the 22d, says that all communication between that point and the North was cut off on account of the terrible storm of snow and sleet. At Columbia, S. C., the snow fell to the depth of three or four inches. A heavy sleet extended as far South as Montgomery, Ala., and the railroads and every thing else were covered with ice.—The cold was intense. On Thursday night the temperature at Norfolk was seven degrees *above zero,* or one degree lower than ever experienced there. The ice in the harbor was eight and a half inches thick, the greatest thickness in former years having never exceeded two inches. In Charleston, on Sunday night the 18th, the thermometer was at twelve degrees above zero, being the coldest weather ever known at that place.

The Richmond Whig of the 20th says:—

"The preceding Sunday will long be remembered as the most inclement day ever experienced in that latitude. Never before did the wind howl so fearfully. The snow was piled upon the streets to the depth of six or seven feet, and forming, in various places, impassable barricades. A fire, too, occurred during the night and thus the horrors of the scene were increased."

The Wilmington (North Carolina) Herald says:—

"We fear there is no doubt of the fact that some nineteen persons have died of cold in Petersburg since the commencement of the present storm."

The Wilmington Commercial of Tuesday adds:—

"The snow was about three inches deep, which on a matter of an inch is a very considerable circumstance in this region. There were a number of sleighs out yesterday; some with one horse, some with two, one with four. Just think of it! In this latitude and locality. For the first time within the recollection of the oldest inhabitant, the Cape Fear river was crusted over with a thin coating of ice."

The Norfolk Argus, of Tuesday, after describing the storm of Saturday, says:

"In the fury and about 11 o'clock Sunday night, the wind suddenly changed to N. W., and perhaps the most terrific storm ever witnessed in this latitude, raged through the night and continued till 7 o'clock on Monday morning. The strongest houses, shook, and trembled frightfully; chimneys, walls and porches were blown down; fences levelled; the leafless limbs of trees scattered about, while the snow, swept entirely from the streets in many places, was heaped up in others twenty feet high. On others running north and south high and continuous ridges extended, hiding the doors and windows, blocking up the entrance, and presenting a most astonishing sight for this section. The snow was driven through every small opening in the windows and doors, and even in many parlors and sleeping apartments the fine, white and frozen particles were accumulated in considerable quantities."

Congressional.

Washington, Jan. 31.

Senate—The Senate was engaged in discussing the Indian appropriation bill. Among other items, $700,000 are appropriated for the pacification of the savages in Oregon and Washington territories.

House.—A bill for the relief of the inhabitants of Kansas was reported by the committee on Territories. The bill abrogates the laws passed by the Kansas Legislature, and provides for a new election.

Marine Items.—Barque J. C. Nickels, of Searsport, at New York, from Rio Janeiro, had a heavy gale Jan. 16, about lat 34, lon 78, which caused the vessel to leak; about 150 bags of coffee, were thrown overboard to lighten her; during the night the crew were badly frostbitten, and one a colored man was frozen to death.

Barque J. B. Johnson of Searsport, at New York, from Barbadoes, had heavy gales, split sails, &c. The J. B. J., brings a part of the cargo of barque John Caskie, (before reported condemned at B.)

Brig H. H. M'Gilvery, of Searsport, at New York from Kingston, Jam, &c, lost part of deck load of logwood, split sails, lost boat, head rails, &c in a gale from ENE, 21st inst, off Nantucket.

From the London (Canada) Free Press, we learn that one of the effects of the recent cold weather has been to disable twenty-seven of the locomotives belonging to the Great Western Railway.

Mr. Kalloch's Case.—At a full meeting of the Tremont Baptist Church, held on Friday, the committee appointed to examine into the charge which has been made against their pastor, Rev. I. S. Kalloch, submitted a report and a series of resolves—both of which were adopted. They deem that the evidence by which the charge is supported is contradictory and not entitled to credence, and that there is no positive evidence of guilt. Deacon Richardson, of the First Baptist Church of Boston, and J. Warren Merrill, Esq., of the Baptist Church in Cambridge, testify that the two accusing witnesses made certain statements to them of the affair, and then and there declared that they stated all they knew and saw, and yet these same witnesses have since sworn to a much more aggravated and essentially different version of the affair. The committee then stated the particulars of Mr. Kalloch's visit to Cambridge, and express the conviction that the circumstances sworn to are improbable in the extreme; for detection was almost certain, and an opportunity for committing the crime charged against him almost impossible.

In conclusion the committee are convinced that Mr. Kalloch has been the object of a base conspiracy, and, from evidence in their possession, they believe him innocent of the crime charged. The report is signed by Messrs. H. G. Swain, Wm. W. Ketchum, Timothy S. Dodge, R. H. Nelson, and C. Drew. The resolves are as follows:

Resolved, That we as a church have full confidence in our pastor's integrity.

Resolved, That we will rally around him with renewed affection, support him with increased zeal, shield him, so far as we are able, from the shafts of calumny which his traducers may continue to hurl at him, and continue the confidence we have always placed in him, showing by word and deed that he occupies a large place in our hearts, and assure him that whatever trials and suffering he may be called on to endure for Christ's sake, we will stand by him to the utmost of our ability.

Resolved, That we bid him declare the whole counsel of God, whether men will hear or forbear, and earnestly, boldly and faithfully continue to "preach the word, be instant in season and out of season, reprove, rebuke, exhort with all long suffering and doctrine."

Mr. Kalloch preached again yesterday, and not only was Tremont Temple crowded in every part, but the passage ways leading thereto and the sidewalk in front were thronged with persons who had been disappointed in effecting an entrance, and who tenaciously held their positions during almost the entire service, encouraged simply by the hope that an opportunity might eventually be afforded them of obtaining admission. The excitement in regard to the subject does not appear to have subsided in the slightest, and great curiosity exists in the community to see and hear Mr. Kalloch.—*Boston Post.*

The *Boston Atlas* has the following comment upon the above named report. We agree with that paper, that in the present position of the case something more is demanded not only by public opinion, but by the best interests of Mr. Kalloch himself.

The Atlas says:

"We have looked for some days for a reply to those affidavits, on the part of Mr. Kalloch or his friends. It has appeared, and will be found in the shape of the report by a committee, appointed by Mr. Kalloch's Church. We are constrained to say, that it is not entirely satisfactory. It does not answer the affidavits of the landlord and fare-taker, except by pointing out, as we have done, the inconsistencies of the facts alleged, with an ordinary degree of prudence and discretion, on the part of Mr. Kalloch, and by stating that two gentlemen of respectability had questioned the landlord and fare-taker, previous to the making of the affidavits, and had received from them statements of the affair, purporting to be full statements, which yet were not so full as the statements in the affidavits. We have no doubt that this was so. But it is not sufficient to invalidate the testimony of the witnesses, as sworn to before a magistrate. And though the opinion of the committee, that Mr. Kalloch is innocent, is entitled to great weight, we think, in view of all the circumstances, that the public have a right to demand a judicial investigation. In the scrutiny of the Courts all parties have confidence. Let the evidence of the men at East Cambridge be submitted to the searching test of cross examination. Let whatever counter evidence exist be produced in open Court, and subjected to a like test. If, as we hope and believe, Mr. Kalloch is innocent, he will come out of the trial triumphant, and his slanderers will receive the punishment they deserve. If he be guilty, it is better that the fact should be established, painful as it will be, than that the matter should rest in its present equivocal position."

A meeting of the Democratic State Committee of New Hampshire, was held recently at Concord, which passed a resolution praising John S. Wells for a seat in the next Cabinet, and another directing the chairman of the Committee to communicate their recommendation to the President elect. The Democratic Standard, a Concord paper, belonging to the party whose name it bears, and which carries at the head of its columns the name of Mr. Wells as candidate for Governor, an office for which he was nominated by the recent Democratic State Convention, makes the following comments on this action of its State Committee:—

"We regard this movement as a virtual withdrawal of Mr. Wells from the canvass, and a proclamation to the opposition that the Democracy of this State will make no fight at the coming contest. If the Committee acted in good faith, their proceedings can have no other interpretation."

Narrow Escape.—We learn that on Tuesday of last week, as two little boys, sons of D. R. McIntire, Esq., of Bingham, were playing near his residence, the youngest, about 4 years of age, suddenly disappeared. The elder, who was some two or three rods distant, on missing him commenced a search and discovered a well, which was then concealed by snow, into which the boy had evidently fallen. He gave the alarm, and Mrs. McIntire (Mr. M. being absent) descended the well, which was twenty feet deep, with five and a half feet of water, and brought out her little boy, apparently dead; but by the persevering application of restoratives, he revived. Mr. M. had removed to this place quite recently, (his former residence having been destroyed by fire,) and the existence of this well was unknown to the family. The boy whom Mrs. M. thus bravely saved from drowning was the one she had recently rescued from the flames of the burning dwelling.—*N. Anson (Me) Union.*

Mr. William Reddon of Minto, Canada, was frozen to death at his own door. He attended the election at Harriston on that day, and on returning home, found his door locked, his wife having gone over to a neighbor's house, and it is supposed he sat down to wait her return. Mrs. R., however, not expecting him to return that evening, remained at her son's house over night, and on proceeding home in the morning, found her husband laying at the door, a corpse.

Rev. Mr. Kalloch. The Evening Journal says: "While we think it due to himself and the public that Mr. Kalloch should court a legal investigation of the serious charges which have been made, we are happy to receive an assurance that his future action in the premises will be governed by the advice of gentlemen in whose sound judgment the community have confidence.

The once proud and strong democracy of the Empire State has reduced itself so low, as to give its Senatorial nomination to Dan Sickles.

Whereupon, even the *New York Herald* makes comments like the following:

Mr. Sickles was nominated. But why this mighty struggle? and why Mr. Sickles, when the nomination amounts to no more, in itself than if he were nominated for Emperor of China? One word will explain—spoils. It is spoils—the federal spoils of the New York Custom House, Post Offices, &c.; and the vote for Mr. Sickles is the result of that sagacious conclusion, that having been an attaché of Mr. Buchanan at London, he will be a little nearer the throne in the matter of the division of the Presidential plunder of this State than anybody else of the New York democratic party, Captain Rynders himself not excepted.

What a falling off is here in the New York democracy! We remember the day when they were a power in the land; when they were a bold, manly, dignified, proud and lofty party, with a high toned organ at Albany, and another in this city, worthy of their position as the exponents of such a party. But that was many years ago. Since that time, under the malign influences of the exploded Albany Regency, and of the Marcys, Van Burens, Dickinsons and Dixes, and other spoilsmen, this New York democratic party, in its squabbles for the plunder and over the plunder, has been so divided, subdivided, patched up, split to pieces, plastered together and covered over with the rags of democratic conventions as to be reduced to a mere democratic scarecrow. It is ragged, filthy, hungry, down in character, down in principle, down in the mouth, down in the heel, and down in the dirt.

A good deal of trouble had been caused in Cincinnati by the bursting of water-pipes.—One parlor carpet was found in the morning covered over an inch thick with ice. The boys got their skates and had a good time of it. In another house, a costly piano was found filled with ice.

The Countess of Brazlski, a Polish lady of wealth, was recently at Baden, when a spark from a gentleman's cigar fell upon her dress, which took fire. The flames were soon stifled, and she received no injury, but £1300 worth of lace was effaced from the earth.

SPECIAL NOTICES.

$2 per square for three insertions—$1 a week for continuance.

Mercantile Lectures.

The 8th Lecture of the Course will be delivered at Norumbega Hall, on THURSDAY EVENING next, February 5,

By Rev. J. H. ALLEN.

Subject—Pagan and Christian Rome.

Lecture to commence at 7½ o'clock.
Tickets for remainder of the Course 50 cents.
Feb 3 G. H. STARRETT, Sec'y.

Notice—The Poor.

A Levee in aid of the Poor of this city will be held on MONDAY EVENING next, by the Ladies, in connection with the Young men's Association. The Entertainment will consist of Declamations, Tableaux, Charades, &c., of which a full programme will hereafter be given.

Price of Tickets—for Gentlemen 50 cents, for Ladies 25 cents. There will be a few reserved seats for one dollar.

Per order of Com. of Arrangements.
Feb 4th

"Dr I. B. or L. & H." The Indian Balsam, of Liverwort and Hoarhound is doing more good in America than can be calculated in dollars. Lives are saved by its soothing influence, and it ever proves the ready friend in a time of trouble in common Coughs, Colds, and other precursors of the Consumption so fatal in our climate.—This is no humbug nostrum, but a real Indian medicine, discovered by an Oneida Doctress, Nahnahtahli, a biographical sketch of whose life may be obtained, and it may be relied upon in all Pulmonary complaints. It may be found at Messrs. Weeks & Potter's, 154 Washington street, Boston, General Agents.

J. E. Ingraham, agent for Bangor—H. H. Hay, Portland, State Agent.

Help for the Sick!

Mrs. E. B. DANFORTH,

From Portland, Clairvoyant, Eclectic Examiner and Prescriber for the sick, will attend to cases, examine and prescribe for those who may wish, whether present or absent. Mrs. D. will remain for a short time in this city, and may be found, for the present, at Mrs. Adams's, on Court Street.

TERMS—For an examination, if present, $1,50—if absent, $2,00.

N. B. Persons wishing an examination after Mrs. D. leaves this city, will please send to E. B. Danforth, Portland, Me., and they will receive proper attention, if the fee is enclosed.

Feb. 3 2taw[illegible]

Penobscot Medical Association.

The Annual meeting of the Penobscot County Medical Association will be held in Bangor, at the City Hall, on WEDNESDAY, February 4th, 1857, at 2 o'clock P. M.

F. B. HOLMES, Cor. Sec'y.
Exeter, Jan. 22, 1857.

Holloway's Ointment and Pills—Extraordinary Remedies for the Cure of Erysipelas.—Charles Fairpoint was afflicted for several years with this disease—For nine months he was almost deaf and blind with it, so severe was the attack; he consulted several of the doctors in the neighborhood, but they did not do him any good, but to use his own words, he was left alone to die. His good genius however, did not desert him, for a friend of his brought him a couple of large boxes and pots of Holloway's Pills and Ointment, which he thankfully accepted and commenced using; the result was perfectly miraculous, for in two weeks he was able to get up, and could see and hear well; at the expiration of a month, he was perfectly cured and able to resume his work.

THE GREAT ENGLISH REMEDY.

SIR JAMES CLARKE'S

Celebrated Female Pills,

Prepared from a prescription of Sir James Clarke, M.D., Physician Extraordinary to the Queen. This invaluable Medicine is unfailing in the cure of all those painful and dangerous diseases incident to the female constitution.

It moderates all excess, removes all obstructions, and brings on the monthly period with regularity. These Pills should be used two or three weeks previous to confinement; they fortify the constitution and lessen the suffering during labor, enabling the mother to perform her duties with safety to herself and child.

These Pills should not be taken by females during the first three months of pregnancy, as they are sure to bring on miscarriage, but at any other time they are safe.

In all cases of *Nervousness and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on Slight Exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Whites,* and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any other powerful mineral.

Full directions accompany each package. Price, in the United States and Canada, One Dollar.

Sole Agents for this country,
I. C. BALDWIN & CO., Rochester, N. Y.
TUTTLE & MOSES, Auburn, N. Y., General Agents.

N. B. $1,00 and six postage stamps, enclosed to any authorized Agent, will ensure a bottle of Pills by return mail.

For sale by one Druggist in every town in the United States. BURR, FOSTER & CO., No. 1 Cornhill, Boston, wholesale *Agents for New England.*

CARD PRINTING,

In all its varieties, at short notice. A large stock of Cards kept on hand.

MARRIED,

In Orono, Jan. 31st, by W. H. Allen, M. D., Mr. John E. Brannon, of Orono, to Miss M. Jane Wentworth, of Veazie.

In New York, Jan. 22d, by the Rev. G. T. Bedell, D.D., Samuel P. Dinsmore, Esq., formerly of this city, to Harriet N. Bean, daughter of the late Rev. Moses Bean.

DIED,

In Veazie, Jan. 10th, Mr. Charles McPheters, aged 80 years and 4 months. Mr. McPheters was one of the first settlers of this town—industrious and also economical, he had succeeded in addition to maintaining his family in acquiring a comfortable property; temperate, [illegible], and truthful, he had acquired the esteem of all good men. [Com.

Boston Special Notices.

Coughs, Hoarseness and Bronchitis.

☞ Brown's Bronchial Troches, when allowed to dissolve slowly in the mouth, have a direct influence to the affected parts; the sedative and soothing effect to the mucous lining of the windpipe into the Bronchii allays Pulmonary Irritation and gives relief, in Coughs, Colds, and the various throat affections to which public speakers and singers are liable. These Lozenges are made from a highly esteemed recipe for alleviating Bronchial affections, and all disorders of the Breath and Lungs—Coughs, Asthma, Hoarseness, Catarrh, Irritation or Soreness of the Throat, occasioned by cold, or unusual exertion of the vocal organs.

Brown's Bronchial Troches.—We take pleasure in calling the attention of our readers to these Lozenges.—Here, in Boston, where the *Bronchial Troches* are known, they are household words, and need no testimony to recommend them; but to our readers in Canada, the West, and indeed everywhere, we cheerfully bear testimony, from personal knowledge, to their efficacy.—*Ballou's Pictorial.* Sold by all Druggists.

JOHN I. BROWN & SON, Boston.

Harper's Weekly Newspaper.

A Journal of Civilization.

☞ Neither labor nor expense will be spared to make it the best Family Newspaper in the world—one whose cheerful and genial character will render it a welcome visitor to every household, while its constant devotion to the principles of right and justice shall win the approbation of the wise and the good. Harper's Weekly will contain a Summary of the Political, Social, Religious, Commercial, and Literary News of the day; it will chronicle the leading movements of the age, record the inventions of genius, the discoveries of science, and present a complete picture of the age in which we live. Its regular contents will embrace Tales, Incidents of Travel and Adventure, Sketches of Character and Social Life, and Essays upon Art and Morals. The first number will contain the commencement of Mr. Thackeray's New Serial Tale, the publication of which, from early sheets published by the author, will be continued from week to week. Harper's Weekly will not supersede or take the place of Harper's New Monthly Magazine. No portion of one will appear in the other. Harper's Weekly will contain sixteen pages of the size of the London Illustrated News, each number comprising as much matter as an ordinary duodecimo volume. Back numbers can always be supplied. Price 5 cents each—$2 50 per year.

Sold by A. WILLIAMS & CO., 100 Washington St., Boston—Gen'l Agents for Harper & Bro's Publications.

Chapped Hands.

Burnett's Kalliston.—This very troublesome and oftentimes painful condition of the hands, also tan, sunburn, freckles, and all redness and roughness of the skin, occasioned by extremes of heat or cold, may be removed and prevented by the use of *Burnett's Kalliston,* or Orient Water. Prepared by JOSEPH BURNETT & CO., Boston. For sale by Druggists generally.

Price 50 cents and $1,00 per Bottle.

To the Consumptive.

☞ WILBOR'S COMPOUND OF COD LIVER OIL AND LIME is an article of wonderful efficacy in all cases of Consumption, or the symptoms which lead to that insidious disease. The extraordinary popularity it has attained is based solely upon its intrinsic excellence, and the endorsement of the medical faculty. Sold by Alexander B. Wilbor, Chemist, at 166 Court Street, Boston, and by Druggists generally.

A Beautiful Head of Hair.

☞ The Christian Freeman, Boston, says—"Sincerely, we had rather pay for SPALDING'S ROSEMARY than have other hair oils for nothing. It is clean and not filthy and greasy as most oils are. We speak from experience and consider it the best in the market. Try it, and see if we have not given you good advice." For ornamenting, improving, cleansing and invigorating the hair, use the Rosemary—you can rely upon it. It has stood the test of time and use. Wholesale and retail Depot, 27 Tremont St., (opposite Museum) Boston Mass. J. RUSSELL SPALDING, Proprietor. Sold by dealers generally throughout the country.

For Coughs, Colds and Consumption.

☞ TRIED AND APPROVED, by an unprecedented sale and popularity of over THIRTY YEARS! Hon. Daniel P. Thompson, Secretary of the State of Vermont, says—"Having seen the beneficial effects of your VEGETABLE PULMONARY BALSAM in my family and neighborhood, I feel free to say that I look upon it as a very valuable medicine in the diseases for which it is recommended." REED, CUTLER & CO., Druggists, Boston, Proprietors. Be careful to get the genuine, as there are many imitations. Sold by Apothecaries and Druggists generally. Price 50 cents and $1 00.

$2,000 a Year!!!

☞ Business honorable—Salary sure! To secure a chance, address immediately, enclosing postage stamps, METROPOLITAN AGENCY OFFICE, Haverhill, Mass.

Fancy Goods and Toys.

☞ We advise all purchasers of Rich Fancy Goods, or any description of Toys, to call at HOLDEN, CUTTER & CO'S, 15 and 17 Kilby street, Boston—one of the most extensive French and German importing houses in the United States, having a house in England, Paris and Germany. They are Agents for Sanderson & Lanergan's celebrated Fire Works.

Penmanship, Book-Keeping, Navigation Engineering, &c.

☞ Practically taught at Comer's Commercial College, 149 Washington Street. Founded A. D. 1840. Open day and evening. Terms moderate. No extras. No class system. Separate department for ladies. Students aided in obtaining employment.—See last Annual Catalogue, which can be had at the rooms, or by mail, *free.*

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, Feb. 3.

SENATE.—Mr. Wilson introduced a bill securing to actual settlers alternate sections in lands granted for railroads.

The Senate went into Executive Session at 1 o'clock, Mr. Mason saying there was an imperious necessity for doing so immediately.

The Central American treaty was debated for 3 hours, and the Senate adjourned without coming to any conclusion on the subject.

HOUSE. The House was engaged mostly on business relating to the District of Columbia, and adjourned, without having done anything of the least public importance.

Washington News.

WASHINGTON, Feb 3d.

The U. S. Treasurer reports the net amount subject to draft in the various depositories of the U. S. on the 29th ultimo, as $21,196,881.

Mr Buchanan left the city to-day, accompanied by some twenty political friends.

The Committee on Ways and Means will report favorably in the House, on the Senate's Sub-marine Telegraph bill.

Baltimore Matters.

BALTIMORE, Feb 3d.

We have no mail south of Washington this morning.

Mr Peabody had a grand reception last evening, from the Mayor, City authorities, and members of the Maryland Institute. Several thousand persons participated in the ceremonies, which were closed with a banquet.

From Mexico.

NEW ORLEANS, Feb 2.

We are in receipt of Vera Cruz dates to the 20th ultimo. It is reported that Senor Soto is about to retire from the Ministry. Rumors were current of the outbreak of a new insurrection at Puebla, while at San Luis affairs were unchanged.

Marine Disasters.

NEW YORK, Feb 3.

Ship Margaret, of Salem, from Shields, was abandoned at sea, January 13th, and her crew brought in at the port to-day, by bark J. M. Fiske.

Brig O. W. Russell, from Rio Grande for New York, was abandoned at sea recently and her crew saved. Her cargo was insured in Wall street for $7500.

Markets.

NEW YORK, Feb. 3.

Novel Proceedings.

The operators and others engaged on all the lines of Telegraph between Calais and Boston, assembled at their various offices last evening about 8 o'clock, and by the use of the wires organized as follows.

Chairman—J. G. SMITH, Portland.

Secretary—WM. S. AUSTIN, Boston.

On motion of F. H. Palmer, of Boston, a Committee was appointed by the Chair, consisting of F. H. Palmer, of Boston, J. S. Bidlow, of Bangor, and Suel Smith, of Portland, to draft resolutions expressive of the sense of the meeting upon the resignation of Mr. Woodman as Superintendent of the line, and of their sympathy for him in his sickness.

The following resolutions were reported and unanimously adopted.

MR. CHAIRMAN,—Your Committee beg leave to submit the following resolutions:

Whereas our late Superintendent, Asa F. Woodman, Esq., has been compelled, by continued and serious illness, to resign the situation which he has so ably and satisfactorily filled for the past year, and retire, for a limited leave, from the telegraphic profession; therefore,

Resolved, That in parting with Mr. Woodman we feel that we lose not only an able and efficient Superintendent, but a kind and considerate friend, and one who has secured the respect, love and esteem of all under his supervision, and we trust that our separation may be but temporary, and that he may soon be with us and of us again.

Resolved, That we tender him our sincere and heartfelt sympathy, in this his time of sickness and suffering, and our best wishes for his speedy recovery and restoration to health, and we would also return to him our grateful thanks for the many favors and acts of kindness and courtesy extended to us.

Resolved, That the proceedings of this meeting and a copy of the above resolutions, be communicated to Mr. Woodman by the Secretary.

(Signed,)
F. H. PALMER,
J. S. BIDLOW, } Committee.
SUEL SMITH,

The whole business was conducted in the usual form of meetings, by the use of the telegraph wires, and occupied about an hour.

The ice was so very thick on the track of the Bangor and Oldtown Railroad, that it was necessary to have it all cleared off with pickaxes, &c. The regular train of cars which left yesterday morning, did not return till last evening.

No train of cars had been received at Augusta from the West last evening at 6 o'clock.

Disasters.

Sch. C. Matthews, of Searsport, from Wilmington, N. C., for Boston, which put into Newport 28th ult, in distress, left W. Dec. 29, and encountered a continuation of gales on the passage, received damage in sails and spars, lost foresail, part of deck load of lumber, boat, and decks swept, was short of provisions, &c.

Some of the sails, rigging and spars of schr. Joseph & Henry, of Eastport, before reported wrecked on Block Island, have been saved and will be taken to Newport, as soon as the weather moderates.

Schr. Bonita, from Eastport for Alexandria, before reported drifted out of Gloucester harbor, and wrecked at Provincetown, was a good vessel of 140 tons, about 6 years old, belonging to Messrs. Paine in Eastport, and, was partially insured, probably in New York; her hull and rigging have been sold at auction for $227.

Schr. Tiger, of Hampden, at New York from Jacmel, had heavy weather, stove boat, water-casks, &c.

A terrific hurricane devastated the Philippine Islands on October 23th. All the suburbs of Manilla and the neighboring villages were reduced to heaps of ruins. The number of houses destroyed at that place alone was above three thousand five hundred. Official returns show that *more than ten thousand houses* were destroyed within a circuit of about ten leagues around Manilla. Six foreign vessels in the Roads of Manilla were also driven ashore.

L. SCOTT & CO.'S
REPRINT OF THE
BRITISH PERIODICALS
AND THE
FARMER'S GUIDE.
GREAT REDUCTION IN THE PRICE
OF THE LATTER PUBLICATION.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals:

1. THE LONDON QUARTERLY (Conservative)
2. THE EDINBURGH REVIEW (Whig)
3. THE NORTH BRITISH REVIEW (Free Church)
4. THE WESTMINSTER REVIEW (Liberal)
5. BLACKWOOD'S Edinburgh Magazine (Tory.)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.

	Per ann.
For any one of the four Reviews	$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00
For all four of the Reviews	8 00

Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.

In all the principal Cities and Towns these works will be delivered *FREE OF POSTAGE.* When sent by mail, the Postage to any part of the United States will be but **Twenty-four Cents** a year for "Blackwood," and but **Fourteen Cents** a year for each of the Reviews.

N. B.—*The price in Great Britain of the five Periodicals above named is about $31 per annum.*

THE FARMER'S GUIDE
To Scientific and Practical Agriculture.

By HENRY STEPHENS, F. R. S., of Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

FIVE DOLLARS FOR THE TWO VOLUMES!

When sent by mail (post-paid) to California and Oregon the price will be $7. To every other part of the Union and to Canada (post-paid) $6.

☞ *This work is* NOT *the old* "*Book of the Farm.*"

Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

Neutralizing Cordial.
THIS is an invaluable remedy in Diarrhœa, Cholera Morbus, Dysentery, Summer Complaints of children, &c., &c. Prepared and sold by AMBROSE WARREN.

GROVER & BAKER'S
New Family Sewing Machines!
PRICE $75.00.

Reasons
Why Grover & Baker's
SEWING MACHINE
—IS—
Universally preferred for Family Sewing.

1st. It is more simple and easily kept in order than any other Machine.

2d. It makes a seam which will not rip or ravel though every third stitch is cut.

3d. It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work.

4th. The same Machine runs silk, linen thread, and common spool cotton, with equal facility.

5th. The seam is as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing, or otherwise.

6th. The stitch made by this Machine is more beautiful than any other made either by hand or machine.

We have been appointed agents for the above Machines, and have them for exhibition and sale at our store, where the public are invited to examine them.

feb2 FENNO & HALE.

ALL HAIL!!
Something for the Million!!!
PROF. WOOD'S
HAIR RESTORATIVE!

WE CALL THE ATTENTION OF ALL, OLD and YOUNG, to this wonderful preparation, which turns back, to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the gray, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongues of thousands.

Watertown, Mass., May 1, 1855.

PROF. O. J. WOOD: Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and then commenced to use, two bottles, and it soon began to tell, in restoring the silver locks to their native color, and the hair, which was before dry and harsh, and falling off, now became soft and glossy; and it ceased falling; the dandruff disappeared, and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again. Respectfully, yours, etc.,
CHAS. WHITNEY.

New York, Oct. 2, 1855.

PROF. O. J. WOOD—Dear Sir: After reading the advertisement in one of the New York journals, of your celebrated Hair Restorative, I procured a half-pint bottle, and was so much pleased with it that I continued for two months, and am satisfied it is decidedly the best preparation before the public. It at once removed all the dandruff and unpleasant itching from the scalp, and thus restored my hair naturally, and, I have no doubt, permanently so.

You have permission to refer to me, all who entertain any doubt of its performing all that is claimed for it.
MISS FEEKS, 264 Greenwich av.

I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and renders the hair soft and smooth—much more than oil.
Louisville, Nov. 1, 1855. MARY A. ATKINSON.

State of Illinois, Carlisle, June 27, '55.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of the "Restorative" it has resumed its original color, and I have no doubt permanently so.
SIDNEY BREESE,
Ex-Senator United States.

From the Washington Star.

Among the many preparations now in use for the restoring, preserving and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefitted by it, and who feel happy in giving testimony to its wonderful effects produced on them.

Newly Invented Skirt Cord!

WE have received, direct from the agents, a new article of Covered Gutta Percha Skirt Cord, infinitely preferable to whalebone or any material heretofore used in skirts, retaining its elasticity, and never liable to break.

It is covered with white cloth, protecting the most delicate fabric from injury, and is in every way the most perfect article ever made for skirts.

We shall be pleased to forward samples to ladies who may favor us with their orders.

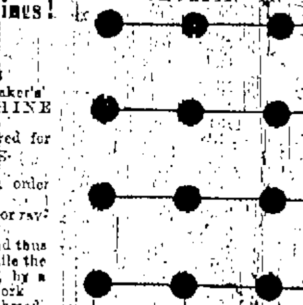
A REVOLUTION IN FARMING.



Corn Planted by Machinery.

A SUBSTITUTE for the slow and tedious process of planting corn has long been considered a desideratum; but until now the labored effort of inventive genius has failed in its production, though years and much money have been spent to accomplish so great a piece of mechanism.

Some estimate of the importance of an invention that will materially facilitate the production of this great staple may be formed from the fact that in 1850 near 600,000,000 bushels were raised in the United States, exceeding in value all other grains, with the entire cotton crop in addition.

The present universal method of planting this great crop is (after the ground is ploughed,) by marking out the surface 3 or 4 feet apart each way, and in the angles thus formed a man drops 4 or 5 kernels and covers with a hoe at an expense of $1 to $1,25 per acre, but failure in part, and sometimes the whole crop results from the difficulty of obtaining sufficient force at the proper time in the spring to secure the planting at the most critical time.

Practical men understand this very clearly. Numerous devices and machines have been made, but failure has only resulted. A plan perfect in one respect was certain to fail in another, so as to render the whole worthless.

No machine until now has been made to meet the universal demand of the farming interests in HILL, check or angular planting, so as to enable him to cultivate with plough and horse-hoe the crop, both ways between the rows.

Drill planting is abandoned because of the impossibility of cultivating but in one direction.

The long wished for machine has been invented and perfected by a young Dutchman, and is the result of three years of unwearied effort, patient investigation, and the application of scientific and mechanical principles to accomplish a desired object.

The device is entirely new, simple and beautiful, working automatically, and yet so ingeniously and naturally as almost to appear the result of instinct.

What Whitney's great invention did for cotton this great invention will do for corn, viz: augment the quantity and diminish cost.

No description could convey a clear idea of its peculiar and simple mechanism.

Without any Cogs, Bands, Pulleys, Cranks, Shafts, Springs, Levers, or Gearing of any kind, with a horse, and guided by a man or boy this machine executes in a neat and perfect manner, the following described work, being what is wanted by every farmer:

1st, Furrows out the ground any required depth.

2d. Drops the corn (as many kernels as desired) in a space of 4 inches diameter mathematically in the HILL equidistant, in one tenth of a second.

3d. Covers the HILLS, and presses the earth as you do with a hoe.

4th. Marks accurately the position of each HILL.

5th. Deposits, if wanted, guano, poudrette, ashes, lime, plaster, or other common fertilizers, exactly in the HILL.

And 6th, Also sticks the pumpkin or squash seed in the HILLS at the usual distances, as now done by hand.

And all this at once at 15 cents an acre by single machine, and 10 cents per acre by a double one—10 acres being planted by the first and 20 by the second, in one day, with no more force than a man and horse.

We are aware that statements look fanciful to that large, stereotyped old fogy class, who are about a quarter of a century in the rear of this progressive age, and whose ideas revolve in the old, slow coach train; but we assure each and every one of them, gentlemen that every word is literal, naked unadulterated truth, obvious, clear, and distinct to the most obtuse intellect or the dullest comprehension, besides being demonstrated by actual use on an extensive scale.

Here is a magnificent monopoly of a great staple Machine, of immense intrinsic value; it must reach the large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be blest in the increased production of grain, and consequently cheap bread.

In the distribution of this splendid prize, (such it really is,) there is a rare chance for a safe investment, lucrative beyond all ordinary calculations; in short, the truth in this connection seems almost fabulous.

Sole proprietors, we are willing to divide upon an equitable basis, and offer the monopoly of this magnificent specialty for States and Territories upon the following terms, *from which* ☞ THERE WILL BE NO DEVIATION. ☜

All New England and Southern States five cents per farm. All other territory six cents per farm—except Illinois, which will be Ten cents per farm; Minnesota, $10,0; Kansas and Nebraska $500; California $600.

New York State will be sold in Counties to suit parties who wish to invest in limited sums. The census of the United States of 1850 will be the basis of estimate.

Terms of payment liberal and accommodating; and to a company who will take the entire interest we will sell at a fair figure. We invite the public to examine this subject, and we will exhibit the machine with pleasure, but especially to those who take an interest in the material progress of this inventive age, as well as to those who cannot fail to find this an available handle of replenishing their exhausted pockets, or augmenting their ready ample resources.

P. S. We have made provision for the supply of all orders for machines at $15 each with fertilizer, or $10 without—retail; (1-4 off wholesale) until the Territory from which such orders come is sold; and when transferred will make an equitable discount in price of territory, for machines thus delivered. Each purchaser of States controls the making, selling and price in their territory; and if not ready to manufacture for ensuing spring at once, we will furnish by contract 1000's at a shade advance on cost, leaving a margin sufficient to satisfy the most exacting cupidity.

HARTLEY & CO.
Boston, Mass, Jan 20th 1857. feb2 1m&w

DeGuinon's Improved
Non-Explosive Camphene & Fluid
LAMPS and CANS.

HAVING purchased the Patent Right for the State of Maine, for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are *the only sure* prevention against explosion from Camphene and Burning Fluids, being made of the most durable materials, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after four years trial, to be the best Lamp in use, giving universal satisfaction, and proving perfectly safe.

These Lamps will be sold at wholesale or retail *as low* as the ordinary Camphene and Fluid Lamp, by J. S. RICKER, *No. 19 West Market Square,* Bangor, Me., dealer in Lamps, China, and Crockery Ware.

Notice of Foreclosure.

WHEREAS, *Joseph B. Chase,* of Orono, in the County of Penobscot, conveyed to us by deed of mortgage, dated the 1st day of January, A. D. 1856, the following described tract or parcel of land, situate on the south side of Mill street, in the town of Orono aforesaid, together with buildings thereon situated, called lot No. 4, being the same lot upon which the said Chase has erected a double tenement dwelling-house, store, and other buildings, and which he now occupies; said mortgage is recorded in vol. 264, page 220, of Penobscot Registry. Now therefore, notice is hereby given that the condition of said mortgage has been broken, by reason whereof we claim to foreclose on the same.

American & Foreign Patents!

R. H. EDDY,
SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No 76 State Street, opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of [illegible] years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. [illegible] MORE SUCCESSFUL AT THE PATENT OFFICE [illegible] SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY [illegible] reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. [illegible] of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet it is one of the greatest causes of dis-ease and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff and cracks, but hereafter by the application of this preservative it remains soft and entirely impervious to water.

After being engaged [illegible] years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experiment in different compositions, and at the same time extremely injurious to the leather. At last by chemical process I discovered a preparation perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have used it for three years and a large part of that time have worked in a wet tannery with my boots constantly in water and have not had my feet wet during that time. I can therefore [illegible] confidence recommend it to the public as the best article in the market.

Manufactured by D. LINCOLN, *Bloomfield, Me.*

ALONZO BARTLETT, No 2 Harlow's Block, East Market Square, Wholesale Agent, Bangor. [illegible]

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE. TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England and the Imperial College of Medicine of Paris and the Imperial College of Vienna are affixed upon each wrapper and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 [illegible] Street ([illegible] blocks West of Broadway), New York, from 11 o'clock until 2, and from [illegible] o'clock till 8 in the evening (Sundays excepted.)

TRIESEMAR No 1—Is the remedy of general debility [illegible] loss of vital power, premature decay [illegible] all the distressing consequences [illegible] physical impediments [illegible] invaluable to those entering the marriage state.

TRIESEMAR No 2. Entirely eradicates all traces of those disorders [illegible] long been thought an antidote for the ruin of the health of a vast portion of the population.

TRIESEMAR No 3. Is the great European remedy for that class of disorders which [illegible] the English physician treated [illegible] to the [illegible] to the patients constitution [illegible] all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos 1 2 and 3—are prepared in the form of a lozenge devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses* [illegible] as administered by Valpeau, Lallemand, Roux, Ricord, &c. Price $3 each or four cases in one for $9, which saves $3, and in $27 cases, whereby there is a saving of $9.

Special Arrangements have been made with the various Expresses, the one dollar cases of the Triesemar [illegible] will be forwarded by Dr. Barrow [illegible] to any part of the world securely packed and addressed according to the instructions of the writer, thus securing to the public a genuine preparation and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as [illegible] free of carriage.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades and in sewing every sort of fabric either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work. SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year, but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye not to perform substantial work. The truth is family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers and are used for a greater variety of work. The machines which follow, proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No others can compare with them in quantity of work.

No machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of I. M. Singer & Co's Gazette, a paper devoted entirely to the subject. It will be sent gratis.

Thrice-Weekly
Kennebec Journal for 1857

DURING the approaching session of the Legislature the undersigned will continue the publication of the *Thrice-weekly Journal*, being the XIIIth Volume of the same.

As is well known the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings we intend also to publish the proceedings of Congress as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter, the debates and proceedings will be of great interest to all who are interested in Bank property.

The numerous lines of railroad which now traverse the State in all directions will enable a very large proportion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings— The price will be

Single Copy—One Dollar for the Session

As usual payable in advance. Any person forwarding us $5 shall be entitled to the sixth copy for his trouble. To any one who will send us $10 we will send two copies extra for his trouble— Whoever shall send us $24 shall be entitled to three copies extra, and in like ratio for a larger amount.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session— *Money remitted by mail at our risk.*

PROFESSOR WOOD'S
HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color so far as the clocks are concerned does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald head—and in no possible case will it fail of curing as if by magic nervous or periodical Head ache, and if used twice a week by the young regularly it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

MILLWARD, Worcester Co. Mass. Nov 1855

PROF. O. J. WOOD—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1830 my hair commenced falling off until the top of my scalp became bald and smooth as glass and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoring. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment, I found after a few applications that my hair became firmly set and assumed a glossy and beautiful appearance, and by the time I had used a quart bottle my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length and growing fast.

Yours truly, HENRY GOODRICH.

CHARLESTOWN, Mass., Aug 9 1855.

Gentlemen—Nothing but a duty I owe to the afflicted, induces me to state that I feel it to communicate to the afflicted, as I have been, [illegible] induced me to give it a trial. [illegible] acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced its use my hair was quite gray and I was entirely bald, having used all other restoratives about five months [illegible] and my hair was changed to its original color, brown, and the new hair is over two inches long [illegible] I have been much gratified at the healthy [illegible] and vigor of the hair, which before was dry and it has ceased to come out as freely.

Respectfully yours, &c. MRS. E. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.

BOSTON, Oct. 2 1855.

Gents.—At your request, and being highly pleased with the effects of the Restorative, I am free to say that my hair had been a quite hindrance and entirely white. I [illegible] for the last five years been in the habit of using dyes [illegible] My hair has been restored [illegible]

Yours &c. MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—

BROOKFIELD, Mass., Jan 12 1856.

PROF. WOOD—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.

Yours truly, J. K. BRAGG.

(From the Jersey City Telegraph.)

WHAT IS IT FOR?—Is Wood's Hair Restorative? [illegible] We answer, [illegible] outlet [illegible] the only article known [illegible] for [illegible]

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising: first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April 1853 I peddled it and sold about six bottles per day—in April 1854 I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults one tablespoonful per day—Children over ten years dessert spoonful—Children from five to eight years tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17 Market Square, Portland, Maine, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

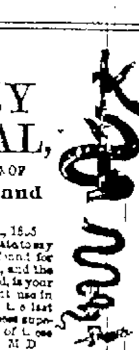
AYER'S
CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, Mass 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Miss., Feb. 7 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan. 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours, with gratitude and regard, ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

PRICE 25 CTS. PER BOX. FIVE BOXES FOR $1.

ANTAGONISTIC
To Prejudice and Empiricism!
OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827.) Licentiate of the Hall (1824) and 28 years [illegible] &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

Involuntary [illegible] as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency and all diseases arising from youthful indiscretion.

This excellent remedy, discovered by the world renowned DR. CULVERWELL, of London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the public in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical that a safe and perfect cure may now be had at the expense of a few dollars, which to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

DR. CULVERWELL'S admirable and entirely novel plan of treating these diseases is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 153 Grand-St., New York, Sole Agents for the United States and Canada.

800	Diamond Ring (Lady's or Gents)
900	Set of Silver Desert Spoons
1 000	Grand Rosewood Piano

These prizes will be given to these numbers in each and every thousand. It is not each subscription money will be returned and paper sent free to each and every tenth subscriber as above stated.

This subscription list was opened October 1856, in which all [illegible] will [illegible] interest.

Every person who orders [illegible] two [illegible] the direct [illegible] of either of the above prizes will be required to furnish a check [illegible] to the [illegible] Illustrated Newspaper.

It should be borne in mind that [illegible] under all circumstances, whether [illegible] a prize or not, will get more than the worth of his money in the paper itself. This is the only Illustrated Newspaper in the United States.

CLUBBING.—Persons sending us [illegible] numbers are certain to receive [illegible] and have a chance for [illegible] the receipt of the eleven subscriptions [illegible] number on the books must be 50—the additional subscribers will be included [illegible]

FRANK LESLIE'S ILLUSTRATED NEWSPAPER.— The first numbers of Frank Leslie's Illustrated Paper have come to hand. In size and general appearance it resembles—and is quite equal to—the London Illustrated News, which is now noted for the excellence and variety of its illustrations. The New York paper however is at half the price of its English prototype [illegible] engravings in *Frank Leslie's* are in no respect inferior to those in *Ballou's Pictorial*. [illegible]
